WELCOME

Dear IFSO Supporter,

the 20th World Congress of the International Federation for the Surgery of Obesity and Metabolic Disorders will be a historic event where over 2500 Surgeons, Endocrinologists, Nutritionists, Gastroenterologists, Anesthesiologists, Scientists and Allied Health Professionals will meet to discuss the appropriate role of gastrointestinal surgery and novel interventional therapies in the understanding and treatment of Obesity and Metabolic Disorders.

This meeting offers a unique opportunity for your company to gain exposure to thought leaders in the emerging field of diagnostic and interventional Treatment. Presentation options can be tailored to your exact needs and budget, from simple branding opportunities through to more comprehensive packages which will communicate your corporate message to each of the influential attendees.

Detailed throughout this brochure is a variety of sponsorship opportunities designed to fit any budget. Sponsorships are sold on a first-come, first-served basis, so act now to reserve your special opportunity. Don't miss the opportunity to position your company at the forefront of the global leading experts.

Thank you in advance for your generous support in our 20th anniversary year. We look forward to serving you a successful event in Vienna!

Karl Miller, MD, FACS Congress President Austrian Society for Obesity and Metabolic Surgery Osterreichische Gesellschaft für Adipositas- und Metabolische Chirurgie

ABOUT IFSO

The International Federation for the Surgery of Obesity and Metabolic Disorders (IFSO) is a federation composed of national associations of bariatric surgeons. The federation was formed in 1995 with the first International Congress held in Prague in 1996. Currently there are 53 official member societies of IFSO and 8,200 members. There are also many individual members from countries that thus far have not formed a national association.

The primary goal of the organization is the optimisation of the treatment of severely obese patients. To support this goal IFSO has produced a number of guidelines, such as selection criteria for patients, minimal requirements for bariatric surgeons, and Statements on morbid obesity, its treatment, and innovation. IFSO is committed to the creation of a system for accreditation of individual surgeons and bariatric centers around the globe. The main activity is currently the organization of the yearly World Congress, which provides a forum to exchange knowledge on surgical treatment of severely obese patients, to present new techniques, research and concepts, and to meet experts in the field. The Congress brings together surgeons, and allied health professionals such as nurse practitioners, dieticians, nutritionists, psychologists, internists and anesthesiologists, involved in the treatment of morbidly obese patients.

CONGRESS VENUE

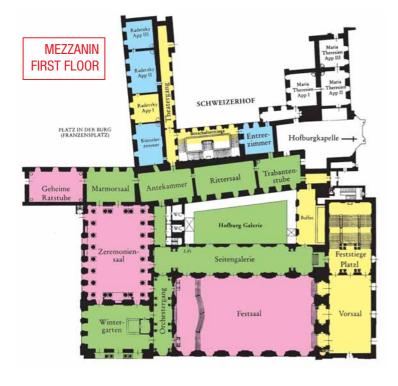

The Hofburg Congress Center occupies a unique position among the congress centers of the world. The Hofburg Palace complex was built between the 13th and 20th century. The different wings of the former imperial residence portray the architectural periods of Gothic, Renaissance, and Baroque up to Classicism.

Until 1918 the Hofburg Palace was the seat of the Habsburg dynasty. The conference will be held today in the same hall where the Emperor held his audiences, gala dinners and royal balls, or where Empress Maria Theresia was baptized on May 15, 1717.

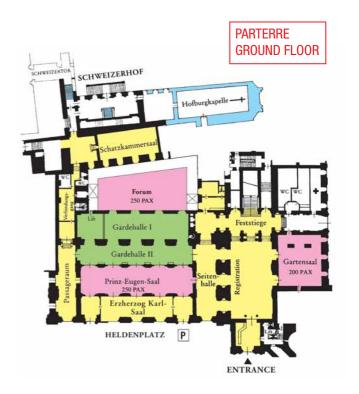

Since 1958 the Hofburg Congress Center has

been situated in parts of the Old Castle, New Castle and the Leopold Wing. The take-over of part of the Hofburg complex was a new starting point from which to carry on the continuity of this historic building.

COMPANY ACTIVITIES - IMPORTANT RULES

All promotional activities inside or outside the congress centre other than the normal stand activities performed at the exhibition booth are subject to prior approval by the Organising Committee.

The organisation and performance of any events, sessions, meetings, symposia-like activities, workshops, group demonstrations or social functions during as well as right before and after the period of the IFSO 2015 congress and surroundings, regardless of whether they take place inside or outside the congress centre and irrespective of whether they are organised through IFSO or not, require prior approval by the Organising Committee. All such activities must be communicated to karl.miller@kh-hallein.at in writing in their initial stages of planning. Exhibitors shall avoid organising any events which may conflict with the official congress programme. Previous permission of IFSO is mandatory.

It is the responsibility of the exhibitors to abide by the Austrian laws and relevant legal regulations with regards to publicity.

HOTEL INFORMATION

The official housing office Austropa Interconvention has pre-booked rooms at various hotels in different hotel categories for congress participants, which will be allocated without processing fee.

It is recommended to make hotel bookings as soon as possible since August is high season in Vienna and rooms will be allocated on a first come/first served base.

GREEN MEETING

The IFSO 2015 – 20th World Congress in Vienna aims to be certified according to the guidelines for the **Green Meetings eco-label**.

Therefore we kindly ask you to fulfil following criteria at the exhibition:

- Waste needs to be disposed according to the waste separation system at the conference venue.
- No single use tableware is allowed during the conference (cups, dishes, silverware etc.).
- If possible used materials/devices will be reused.

Optional requests will be:

- Use reusable and recyclable materials
- Use only materials without PVC
- Safe energy by using energy saving lighting systems (LED-Systems, energy saving bulbs, timer, etc.)
- Waive mass distribution of flyers and other printed material. Give out printed material only on request or prefer electronic information (provide link for download etc.)
- Use 100% recycled paper or chlorine free bleached paper (TFC) for printed material or delegate your printed matters to a print shop who is certified according to the Austrian eco-label "Umweltzeichen".
- If possible, waive give-aways. If this is not possible, use long life and/or reusable products (wood, natural fibre) without plastic packaging and batteries, use fair trade products or products with an official accepted seal of quality.

Let's consider the future and act with sustainability in mind ...
